ARCHER STOCK FUND

FUND SUMMARY

Investment Objective

The investment objective of the Archer Stock Fund (the “Fund”) is capital appreciation.

Fees and Expenses of Investing in the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

Redemption Fee (as a percentage of the amount redeemed within ninety (90) days of purchase)	1.00%
---	-------

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Management Fee	0.50%
Distribution and/or Service (12b-1) Fees	none
Other Expenses	0.89%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%
Total Annual Fund Operating Expenses	1.40%
Fee Waiver and/or expenses reimbursement ⁽²⁾	-0.16%
Total Annual Fund Operating Expenses after Fee Waiver and/or Expense Reimbursement	1.24%

⁽¹⁾ Acquired Fund Fees and Expenses represent the pro rata expense indirectly incurred by the Fund as a result of investing in money market funds or other investment companies that have their own expenses. The fees and expenses are not used to calculate the Fund’s net asset value and do not correlate to the ratio of Expenses to Average Net Assets found in the “Financial Highlights” section of this Prospectus.

⁽²⁾ The Advisor contractually has agreed to waive its management fee and/or reimburse certain Fund operating expenses, but only to the extent necessary so that the Fund’s total operating expenses, excluding brokerage fees and commissions, any 12b-1 fees, borrowing costs (such as interest and dividend expenses on securities sold short), taxes, extraordinary expenses and any indirect expenses (such as Acquired Funds Fees and Expenses), do not exceed 1.23% of the Fund’s average daily net assets. Pursuant to the Expense Limitation Agreement, if the Adviser so requests, any Fund Operating Expenses waived or reimbursed by the Adviser pursuant to the Agreement that had the effect of reducing Fund Operating Expenses to 1.23% within the most recent three years prior to recoupment shall be repaid to the Adviser by the Fund; provided, however, that such recoupment will not cause the Fund’s expense ratio, after recoupment has been taken into account, to exceed the lesser of the expense cap in effect at the time of the waiver or the expense cap in effect at the time of recoupment. The contractual agreement is in place through December 31, 2026. The Management Services Agreement may, on sixty (60) days’ written notice, be terminated with respect to a Fund, at any time without the payment of any penalty, by the Board of Trustees or by a vote of a majority of the outstanding voting securities of the Fund, or by Management. The Management Services Agreement shall automatically terminate in the event of its assignment. The Expense Limitation Agreement may only be terminated by the Board of Trustees on sixty (60) days’ written notice to Management or upon the termination of the Management Services Agreement between the Trust and Advisor.

Example:

This Example is intended to help you compare the cost of investing in the Archer Stock Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses (giving effect to the expense limitation only during the first three years) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 YEAR</u>	<u>3 YEARS</u>	<u>5 YEARS</u>	<u>10 YEARS</u>
\$126	\$411	\$734	\$1,651

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 8.56% of the average value of its portfolio.

Principal Investment Strategies of the Fund

Under normal market conditions, the Fund will invest at least 80% of its assets in a portfolio of common stocks and equity securities which include preferred stock and depository receipts of companies of all sizes. The Fund's 80% policy is a non-fundamental investment policy that can be changed by the Fund upon 60 days' prior notice to shareholders. The Advisor employs security selection based on research and analysis of the company's historical data. In selecting securities to purchase, the Advisor evaluates factors that include, but are not limited to market capitalization, valuation metrics, and earnings and price momentum over time. Portfolio securities may be sold generally upon periodic rebalancing of the Fund's portfolio. The Advisor considers the same factors it uses in evaluating a security for purchase and generally sells securities when it believes such securities no longer meet its investment criteria.

The Fund will invest up to 30% of its total assets in the securities of foreign issuers, including those in emerging markets, and will invest up to 10% of its total assets in real estate investment trusts ("REITS") or foreign real estate companies. The Advisor expects that the Fund's investment strategy may result in a portfolio turnover rate in excess of 100% on an annual basis.

Principal Risks of Investing in the Fund

Investors in the Fund should have a long-term perspective and, for example, be able to tolerate potentially sharp declines in value.

The prices of securities held by the Fund may decline in response to certain events taking place around the world, including those directly involving the companies whose securities are owned by the Fund; conditions affecting the general economy; overall market changes; local, regional, or global political, social, or economic instability; and currency, interest rate and commodity price fluctuations. The common stock and other equity type securities purchased by the Fund may involve large price swings and potential for loss.

Investments in securities issued by entities based outside the United States may also be affected by currency controls; different accounting, auditing, financial reporting, and legal standards and practices; expropriation; changes in tax policy; greater market volatility; differing securities market structures; higher transaction costs; and various administrative difficulties, such as delays in clearing and settling portfolio transactions or in receiving payment of dividends. These risks may be heightened in connection with investments in emerging markets. Investments in securities issued by entities domiciled in the United States may also be subject to many of these risks.

You may lose money by investing in the Fund. The Fund's performance could be hurt by:

Market Risk. Overall stock market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets.

Small and Mid-Cap Risk. Direct investments in individual small capitalization companies may be more vulnerable than larger, more established organizations to adverse business or economic developments. In particular, small capitalization companies may have limited product lines, markets, and financial resources and may be more dependent upon a relatively small management group.

Foreign Securities Risk. Investments in foreign securities may be affected by currency controls and exchange rates; different accounting, auditing, financial reporting, and legal standards and practices; expropriation; changes in tax policy; greater market volatility; differing securities market structures; higher transaction costs; and various administrative difficulties, such as delays in clearing and settling portfolio transactions or in receiving payment of dividends. These risks may be heightened in connection with investments in emerging or developing countries.

Real Estate Risks. The value of Equity REITs may be affected by changes in the value of the underlying property owned by the REITs, while the value of mortgage REITs may be affected by the quality of any credit extended. Investment in REITs involves risks similar to those associated with investing in small capitalization companies, and REITs (especially mortgage

REITs) are subject to interest rate risks. Because REITs incur expenses like management fees, investments in REITs also add an additional layer of expenses.

Active Trading Risk. Active trading could raise transaction costs (thus lowering return). In addition, active trading could result in increased taxable distributions to shareholders and distributions that will be taxable to shareholders at higher federal income tax rates.

Equity Risk. Equity securities generally have greater price volatility than fixed income securities.

Management Risk. The advisor's investment strategy may fail to produce the intended results. The Advisor's management practices and investment strategies might not work to meet the Fund's investment objective.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to fund assets, customer data (including private shareholder information), or proprietary information, or cause the fund, the manager, any subadvisor and/or its service providers (including, but not limited to, fund accountants, custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or lose operational functionality.

An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

The Fund is not a complete investment program. As with any mutual fund investment, the Fund's returns will vary, and you could lose money.

Performance

The following bar chart and tables below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual returns for 1, 5, and 10 years with those of a broad-based market index and a performance average of similar mutual funds.

Remember, the Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information will be available by calling the Fund toll-free at 1-800-238-7701.

Archer Stock Fund
Calendar Year returns as of December 31, 2023

The calendar year-to-date return for the Fund as of September 30, 2024, was 17.13%. During the period shown, the highest return for a quarter was 21.65% (quarter ended June 30, 2020); and the lowest return was -18.14% (quarter ended December 31, 2018).

AVERAGE ANNUAL TOTAL RETURNS
(for the periods ended December 31, 2023)

The Stock Fund

	1 Year	5 Years	10 Years
Return Before Taxes	25.43%	13.89%	8.53%
Return After Taxes on Distributions ⁽¹⁾	23.51%	12.89%	7.72%
Return After Taxes on Distributions and Sale of Fund Shares ⁽¹⁾	16.38%	11.04%	6.78%
S&P 500 Index (reflects no deductions for fees, expenses, or taxes) ⁽²⁾	26.37%	15.70%	12.03%

⁽¹⁾ After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes or the lower rate on long-term capital gains when shares are held for more than 12 months. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

⁽²⁾ The Index is an unmanaged benchmark that assumes reinvestment of all distributions and excludes the effect of taxes and fees. The Standard & Poor's 500 Index ("S&P 500") is a market value-weighted index, representing the aggregate market value of the common equity of 500 stocks primarily traded on the New York Stock Exchange. The S&P 500 is a widely recognized, unmanaged index of common stock prices. The figures for the S&P 500 reflect all dividends reinvested but do not reflect any deductions for fees, expenses or taxes.

Management of the Fund

Archer Investment Corporation serves as the Investment Advisor of the Fund.

Portfolio Managers

<u>Investment Professional Fund Title (if applicable)</u>	<u>Experience with this Fund</u>	<u>Primary Title with Investment Advisor</u>
Troy C. Patton, CPA/ABV	Since March 2011	President
John Rosebrough, CFA	Since March 2011	Senior Vice President

Purchase and Sale of Funds Shares

You may purchase or sell shares of the Funds on any day the Funds are open for business by contacting your financial intermediary or other financial institution, or by contacting the Funds by telephone or by mail as set forth in the table below or by wire transfer. The minimum initial investment in a Fund is \$2,500 (\$250 for automatic investment plan participants) and minimum subsequent investments are \$100.

By Mail (or Overnight):

Archer Stock Fund
c/o Mutual Shareholder Services, LLC
8000 Town Center Drive, Suite 400
Broadview Heights, OH 44148

By Wire: 1-800-238-7701

Tax Information

The Fund intends to make distributions to its shareholders on an annual basis to the extent that it has income or gains to distribute. Distributions may be taxed to shareholders as ordinary income or capital gains unless you are investing through a tax-deferred arrangement, such as 401(k) plans or an individual retirement account. Such tax-deferred arrangements are taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund may pay the intermediary from the Fund's assets, or the investment adviser and/or the Fund's distributor may pay the intermediary out of their own funds and not as an expense of the Fund, for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary to recommend the Fund over another investment. Consult with your financial intermediary or visit their website for more information.

For important information about the purchase and sale of fund shares, tax information and financial intermediary compensation, please refer to "Shareholder Information" found on page **Error! Bookmark not defined.** of this Prospectus.
